Buyer will instruct Buyer Parties and customers in the proper and safe use, handling, Processing, storage, and disposal of Product, whether in Product original form or in a Processed form. As used herein, “**Process**”, “**Processed**,” and “**Processing**” shall mean the processing, application, alteration, compounding, blending, molding, mixing, or other uses of Product or the manufacture, assembly, or fabrication of articles or equipment, in whole or in part, directly or indirectly, from Product, alone or in combination with other materials.

8.2 REACH requirements: (Applicable only to Sales in the Territory of the European Union)

1) Resin Solutions states and warrants that the requirements and obligations of the European Regulation No. 1907/2006 and any further amendments (including Regulation CLP (EC) 1272/2008 on classification, labelling and packaging of substances and mixtures), hereinafter referred to as “**REACH**”, to allow the placing on the market of the Product(s) sold and/or delivered under the Agreement and/or the substances contained therein – for the downstream end-uses that Resin Solutions has been informed of by Buyer within the timeframe required under REACH and to which Resin Solutions has not objected – shall be fulfilled throughout the term of the Agreement within the timeframe required under REACH. Resin Solutions shall endeavour to inform Buyer sufficiently in advance – as soon as Resin Solutions becomes aware of – if a substance within Resin Solutions’ Products should not be compliant with REACH or CLP, and in case Resin Solutions cannot offer an alternative, in order to enable Buyer to look for alternative sources of supply and in which case paragraph 6 applies for the relevant Product.

2) In application of article 31 of REACH, Resin Solutions shall provide Buyer with a copy of the current SDS for the Product(s) and/or the substance(s) contained therein whenever this is so required. Resin Solutions undertakes to disclose to Buyer all reasonably relevant and/or required information received from the manufacturer/importer or from its own supplier, which is not mentioned in the SDS, to the extent that Resin Solutions is authorized to disclose so. In case no SDS is required under article 31 of REACH, Resin Solutions undertakes to disclose the information specified in article 32 of REACH. Resin Solutions undertakes to provide Buyer at his first request with written confirmation as well as any other evidence that may be required in order to demonstrate that the Product(s) and/or substances contained therein meet the REACH and CLP requirements mentioned above. Resin Solutions undertakes to cooperate fully to allow Buyer to comply with any inspection and request made by the national authorities regarding compliance with REACH and CLP.

3) Buyer undertakes to become acquainted with the abovementioned information and to comply with and implement the provisions, measures and precautions mentioned in the SDS and/or additional information. Buyer undertakes to provide such information and obligations to its personnel, contractors and/or customers to whom it supplies the Product(s). Moreover, Buyer undertakes to disclose to Resin Solutions any new information on the hazardous properties of the delivered Product(s) which Buyer would acquire, in addition to any other information with a nature to challenge and/or improve the risk management measures for the Product(s), the precautions or the recommendations set forth in the SDS. Should Buyer want new or specific uses to be included in the SDS, it must provide Resin Solutions in writing with sufficient information on such uses, within a timeframe that is compatible with the implementation of the obligations resulting from REACH. However, and notwithstanding such notification, Resin Solutions is not bound to take into consideration the specific or new uses that are not provided for in the SDS. For any use advised by Buyer which is declared unsafe or advised against by Resin Solutions, or which is not mentioned in the SDS, Buyer undertakes to either

draft a report on the chemical safety and carry the costs for implementation of REACH or discontinue such use.

4) The identified uses of substances supplied by Buyer to Resin Solutions are only supplied to Resin Solutions in order to allow the latter to comply with REACH. Consequently, the fact that Resin Solutions is made aware of the uses by Buyer in the framework of the exposure scenarios shall not constitute, neither shall it be construed as being an agreement between parties regarding the contractual quality of the Product nor shall it represent or be construed as giving any guarantees or warranties (express or implied) with respect to the merchantability, suitability, technical performances or (technical) fitness of the Product for any particular purpose or otherwise.

5) Authorization. To the extent that substances in the Products are included in Annex XIV REACH – List of substances subject to authorization (the “Listed Substances”), with the indication of the date from which the placing on the market and the use of the Listed Substances shall be prohibited unless an authorization is granted (i.e. the “Sunset Date”) and the downstream use(s) of the Listed Substances are not exempted from authorization under REACH, Resin Solutions shall apply or, at his option, shall have its supplier apply, for an authorization and use its reasonable efforts to obtain an authorization before the Sunset Date. Subject to the foregoing, and only if the authorization is not obtained by decision of ECHA, or if it is obvious that the authorization will not be obtained before the Sunset Date, Resin Solutions shall use or, at his option, shall have his supplier use, reasonable efforts to develop for Buyer suitable alternative solution(s) to the Listed Substances in question.

6) In case the Product(s) would not comply with REACH and CLP, Buyer shall, notwithstanding anything to the contrary and without prejudice to its right to claim damages (subject to the limitations under article 12), have the right to suspend or terminate immediately the Agreement and/or current Orders with respect to the noncompliant Product(s), without paying any indemnity nor compensation to Resin Solutions. Notwithstanding anything to the contrary, both parties shall have the right to terminate immediately the Agreement and/or current Orders with respect to the non-compliant Product(s), without paying any indemnity or compensation to the other party, in case:

- ECHA rejects the registration of the Product(s) and/or the substances contained therein without any fault of Resin Solutions, or

- ECHA imposes restrictions on the Product(s) and/or the substances contained therein leading to:

- ⇒ a decision of the Resin Solutions to stop manufacturing and/or importing the Product(s), or
- ⇒ the situation that said Product(s) become irrelevant and/or cannot be applied anymore for the uses of Buyer, or

- paragraph 5 applies and the Products and/or the Listed Substances contained therein will not be authorized for the uses of Buyer and no alternative solution can be offered by Resin Solutions using reasonable efforts.

7) Resin Solutions undertakes to defend, to indemnify and to hold Buyer harmless against (i) any and all damage arising out of or resulting from any claim – this however limited to the contract price of the supplied Product with respect to the relevant Order or Agreement – and (ii) any and all administrative, civil and penal fines imposed by the competent authorities to Buyer, and resulting from the non-compliance with REACH by Resin Solutions’ fault (including the failure to provide the required SDS).

However Resin Solutions shall not be liable for any claims or any loss or damage if the Product is used for another use than those identified in Resin Solutions’ SDS (including identified uses declared by Buyer and not objected to by Resin Solutions in the framework of the exposure scenarios), and/or if the use advised by Buyer is declared unsafe or advised against by Resin Solutions, and/or if the specifications and precautions contained in the applicable SDS are not observed.

Resin Solutions shall not be responsible or liable for any non-fulfilment or delay in the performance of its commitments and obligations if this is due to the observance of legal or regulatory obligations under REACH.

For the avoidance of any doubt, it is specified that the liability of Resin Solutions as defined in this article shall neither be affected nor reduced by any other provision of the GCS and/or the Specific Conditions and/or the Agreement that may limit or reduce the liability of the Resin Solutions as defined hereunder. In case of contradiction and/or discrepancy between this article and any other article of the GCS and/or the Specific Conditions and/or the Agreement, the former shall prevail for REACH.

ART. 9 – TRANSFER OF RISKS AND TITLE
